Pre-trained embeddings

No improvements

Poor overlap of pre-trained words with those of the SEAME corpus

Initialised the embeddings in the RNNLM and DLM with these pre-trained embeddings

Poor alignment of embeddings between words in English and Mandarin

Pre-trained embeddings

Initialised the embeddings in the RNNLM and DLM with these pre-trained embeddings

No improvements

Poor overlap of pre-trained words with those of the SEAME corpus

Poor alignment of embeddings between words in English and Mandarin

Pre-training with monolingual data

Pre-train network with additional monolingual text to improve upon the monolingual stretches in the code-switched text
